### 20, 40 or 48 Foot Long

Refrigerated containers are commonly available as 20 foot (3m) or 40 foot (6m) in general or high cube formats. Longer 48 foot containers are also available from time to time.

40' Reefer Interior

### +/- 25 degrees

Conditions inside refrigerated containers can be exactly controlled from -25 to +25 degrees C and partitioned to include chiller and freezer sections. Temperature can be monitored via internal and external gauges.

20' Reefer Motor

### Food Grade Shelving

Containers can be fitted with fully adjustable food grade shelving on request.

3 Tier Food Grade Shelving

### T Flow Floors

T flow floors allow spills to be easily washed out with a hose, they enhance the ability to slide cargo in and out of the container and allow for increased air flow and cooling under contents placed on the floor.

"T" Flow Floors

### Electrical Fit Out

Refrigerated Containers can be fitted with lighting, power outlets and alarms internally or externally.

2 x Internal Lights & Wall Switch

### Safe & Secure Access

Refrigerated containers can be fitted with side opening butcher's style doors with safety release plungers to assist with frequent staff access requirements.

Butchers Door Plunger

### Dimensions Available

Refrigerated shipping containers are used for the storage of frozen goods such as seafood or ice cream and for chiller goods like fruit, dairy, flowers or anything that requires strict temperature control.

Each container is fully insulated with a stainless steel interior, aluminium "t" flow floor for ease of cleaning and washing out. Controls are simple to operate and are adjustable between -25°C +25°C.

Shipping Container	Common Modifications
20'RFR	Personnel doors
